Background: all 7,465 inserted and adjusted projects, as published in House Bill 10858 (third reading) and the 2027 NEP: DPWH, farm-to-market roads, health facilities and irrigation; inserted first, then increased, then decreased, largest first. Insertions and adjustments are candidates found by comparing the two documents, not findings of wrongdoing. The documents do not say who asked for any project. As of October 27, 2026.
